

Prometeia wins the Liquidity Risk Management category of 2016 Risk Technology Rankings

Prometeia, the global leader in Risk consulting and software solutions, **ranked first in the Liquidity Risk Management category of the Risk Technology Rankings 2016.**

The rankings recognize the **best technology vendor in risk and derivatives management worldwide.** Winners have been determined exclusively by Risk's readers at financial firms who voted in an online survey throughout October and November 2016.

Prometeia this year participated to the contest for the first time and immediately came first in one of the risk management categories considered. For more information on the rankings [visit here](#).

*"Such an acknowledgement is a remarkable achievement for us since it comes directly from our solutions' end-users," says **Andrea Partesotti, Head of the Enterprise Risk Management Area at Prometeia.** "Our 'one-stop shop' business model – based on a unique combination of consulting, research, and specialized SW solution – fits perfectly the industry request for greater project efficiency, that is why it is so widely appreciated."*

This award comes shortly after Prometeia raised its ranking in the 2017 RiskTech100[®] by Chartis, where it registered a notable improvement in all assessment dimensions, continuing to be **placed as a leader in the Customer Satisfaction category.**

ABOUT PROMETEIA
